REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Instant Claim 1 discloses: a cylindrical press member fitted on the core member, the first end of the cylindrical press member being fixed to an outer circumferential portion of the armature member, and a cylindrical guide member fixed to an inner circumferential portion of the armature member and fitted in the core member. This combination of limitations defines over the prior art of record. Mabee (U. S. Patent no. 5,603,395) and Gail (U. S. Patent no. 3,101,824) are the closest prior art. Mabee (figure 15) shows a cylindrical press member 744 and a guide member 746, but the cylindrical press member is not fitted on the core member. Gail (figure 2 cylindrical press member 72 and a guide member 75) suffers the same deficiency as well as not having a multi-plate brake.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert A. Siconolfi whose telephone number is 703-305-0580. The examiner can normally be reached on M-F 10 am-3 pm.
